Kerry Strait, 27, Fairfax, Ohio

> My time is too valuable to wait for dial-up.

“ With Comcast High-Speed Internet, I get an endless supply of information at my fingertips, NOW! ”

Yolanda Spradling, 28,
Spokane, Washington

> We can check, know and go – because it’s always on.

“ It’s a way for our family to keep up with schedule changes for our kids’ sporting events. My sons’ coaches can’t call 14 homes at a time, so they use e-mail. ”

Dave Nichols, 45,
Charlotte, North Carolina

> I’ve become a big high-speed believer!

“ Once I found out my son could e-mail me snapshots of my grandkids, I had to get high-speed. And now that he’s set up a web site with home movies, I even get streaming video! I love feeling like I’m right there with them. ”

Christie Price, 58,
Sunnyvale, California

Wondering why everyone’s so excited about Comcast High-Speed Internet service? Simple. More speed means more capacity, more fun, more ways to get the most out of your computer.

Your cable-modem connection can run significantly faster than a conventional 56K dial-up modem. It’s even faster than 640K DSL. So it’s easier than ever to share large files like photos with Grandma, play real-time games with friends around town and around the world, research medical advice to soothe a sick child... whatever matters to you most at the moment is instantly at your fingertips.

Of course, there’s more to Comcast High-Speed Internet service than fun and games. When you have valuable information you want to access fast, or large files you need to send or receive, there’s nothing better.

Plus, with our cable connection you don’t need to pay for a second phone line, or suffer the inevitable problems of sharing a single line between your phone and your computer. Save yourself money. And save yourself from delays and frustrations.

Comcast High-Speed Internet: You’ll be amazed at how fast and easy it is to find what you need, and keep in touch.
